## Summary of Qualifications

I am a certified **Azure Solutions Architect** with working knowledge of software engineering development practices and tools used by fortune 500 companies and Silicon Valley startups.

I am a seasoned IT manager with over ten years' experience managing multimillion-dollar software initiatives with co-located and offshore teams of engineers. I am **certified at standard and scaled Agile management techniques** and frameworks. I help companies transform from low performing software delivery to high performing organizations.

My goal is to architect solutions and manage their implementation using agile methodologies.

- Excellent written and verbal communication skills.
- Excellent customer service skills, able to easily communicate with executives, stake holders, customers and department heads.
- Creative, tech savvy, willing to continue to learn and apply knowledge.
- Dependable, flexible and understand the value of working as a team to reach a common goal.

---

**CSM** – Certified Scrum Master – Scrum Alliance

**Microsoft Certified Trainer**  
**ICP-ACC** – Certified Professional in Agile Coaching  
**CSPO** – Certified Scrum Product Owner  
Certified Azure Cloud Fundamentals

---

## **Professional Experience**

*Story Data IO (2017-Present)*

### **Solution Architect / Co-creator**

Architect big data solution that allows Hollywood script buyers to connect with the right story at the right time, using a provisional patent process that extracts written script content into data. Solution uses Cosmos DB Sql and Gremlin databases, Event Hubs for telemetry, Azure Functions, Azure Communication Services, Azure Storage, App Services Containers, Azure Blockchain Services, Azure Logic Apps, Azure Key Vault, CDN, Traffic Manager, Signal R, and ElasticSearch Cloud. Built using C#, ASP.NET Core, Xamarin Forms, with CI/CD using Azure DevOps.

*DaVinci Film Festival (2020)*

### **Solution Architect**

Architect streaming platform to allow film festival worldwide attendance and feature film streaming from September 10<sup>th</sup> - 13<sup>th</sup> 2020. Solution used Cosmos DB Gremlin database, Event Hubs for telemetry, Azure Functions, Azure Storage, App Services, Azure Key Vault, CDN, and Traffic Manager. Built using C#, ASP.NET Core, with CI/CD using Azure DevOps. Currently working to expand architecture for year round video streaming platform and to function on Apple TV, Amazon Fire TV, and mobile devices.

*Client Name Withheld (2019)*

### **Solution Architect**

Architect mobile first platform to allow individuals to arrange virtual and in person dating. Due to legal reasons I can not disclose company name or architecture, other then I used Microsoft Azure and Azure DevOps.
